Edificio commerciale  
Piacenza - Italy

Do you have overload issues on your building? Do you wish to use natural stone, but can't due to its heaviness?

**TF Panel** for exteriors – **real natural stone** in a bit of weight – is the solution (16kg/sqm)

**TF Panel** allows us to minimize the overload to a fifth of the weight of a traditional slab, speeding up the fitting (4-5 times faster).

Why give up on the dream of using beautiful natural stone?

Using a unique and advanced technology, combined with the Italian ultra millenary stone experience and style, the **TF Panel** is a sandwich composed of 5 mm. of any kind of natural stone slab, glued to a honeycomb core, made stiff by 2 fibre glass cloth skins.

**TF Panel** gives us the possibility to use great dimensions of natural stone (big panels up to 3000 x 1200 mm.) which are not only **strong** (very high flexural strength), but also **extremely light** (16 kg/sqm. – a fifth of the weight of a traditional slab), at a very competitive price.

We can provide any kind of natural stone from all over the world.

Advanced technical assistance can be provided worldwide at no charge. Please, do not hesitate to contact us by mail, phone, fax or E-mail.

After 6 millennia a real breakthrough in the natural stone industry!!!

For 6 millennia natural stone has been heavy, fragile, used only in small dimensions, expensive and very difficult to be fitted!!!

Forget it!

TF Panel is real natural stone in a bit of weight: **light – strong – big – competitive – cheap** to transport, easy to be handle and install.

Using a unique and advanced technology, combined with the Italian ultra millenary stone experience and style, the **TF Panel** is a sandwich composed of 5 mm. of any kind of natural stone slab, glued to a honeycomb core, made stiff by 2 fibre glass cloth skins.

Very **large panels** of real natural stone (up to 3000 x 1500 mm.) which are not only **strong** (very high flexural strength), but also **extremely light** (16kg/sqm. a fifth of the weight of a traditional slab), at a very competitive price.

The brightest way to exploit and to safeguard the Nature.

TF Panel interni s.r.l. can provide a wide range of marbles, granites, travertine's, limestones, sandstones, quartzites, which come from all over the world.

The full beauty of nature for interior decoration and furniture: **wall claddings, floors** (raising floors included), **stairs, doors, tables, planters, window displays, big mosaics, ceilings** and any other boldest application which the most innovative imagination can design for Hotels, Commercial buildings, Banks, Cruise liners, luxury houses, coffee shops, restaurants, boutiques.

Advanced technical assistance can be provided worldwide at no charge. Please, do not hesitate to contact us by mail, phone, fax or E-mail.
